Required Level of Care:

The level of care of horses should be the highest standards in the industry.

- Annual Dental Care (floating of teeth)
- Fall Inoculations – Influenza, Rhino, and any others recommended by your vet, and dental (may be combined).
- Rotated de- worming as recommended by Veterinarian. Hoof care every 8 weeks.

Horses are herd animals and are happiest when they have equine companion.

The horse should have daily turnout of no less than 8 hours unless there is dangerous weather.

A vet is to be called for any illness and any serious injury.

The horse must be trimmed or shod by a qualified farrier, going no longer than every 8 weeks. The feet are also to be cleaned regularly.

Each horse must receive the required daily feed allowance plus plenty of good quality grass or hay.

Each horse must be offered no less than 15 gallons of fresh water each day, either in buckets or in regularly cleaned out water troughs. A stagnant pond or creek is not an acceptable primary source of water.

The adopter agrees not to work the horse beyond its physical limitations at any time or to put the horse in harms way at any time.

The horse needs to have at least one acre of clear-cut pasture with some shade per horse.

The horse must have at least a 3-sided shed in the paddock to block wind and bad weather. Preference is given to anyone that has an individual stall for each horse.

Your pasture must have acceptable fencing.

Any individual or organization in possession of the equine as of the date of the agreement and any time thereafter is bound to not sell the equine at auction for slaughter or allow the equine to be sold, transferred, released, or otherwise placed into possession of any person or organization that will cause or allow the equine to be sold at auction for slaughter.

I have read and understand the conditions of the Rehoming Contract and agree to uphold the highest level of care for my adopted horse.
