Bringing Your Adopted Horse Home:

Congratulations on your newly adopted equine! Thank you for giving a rescued equine a second chance. Please keep in mind that most of our rescue horses have come from various neglectful situations. It should be expected that the transition to an unfamiliar environment can be stressful as they are leaving their herd behind. The horse should be given a minimum of 3-7 days to adjust to their new surroundings and herd before over stimulating them. Going to a new home can be a frightening experience and it’s important that you are patient and understanding with them during this transition.

Required Level of Care:

The level of care of Adoption Horses should be the highest standards in the Industry.

Required Veterinarian Care:

- Spring Inoculations – Eastern/Western Encephalitis, Tetanus, Rabies, and any others recommended by your vet
- Annual Dental Care (floating of teeth)
- Fall Inoculations – Influenza, Rhino, and any others recommended by your vet
- Rotated de-worming every 8 weeks.
- Hoof care every 6-8 weeks.

Horses are herd animals and are happiest when they have an equine companion. Horses will not be adopted out to a home without another horse and must always be turned out with an equine companion unless due to a temporary medical emergency.

The horse must have daily turnout of no less than 8 hours unless there is dangerous weather or a medical reason.

An equine veterinarian is to be called for any illness and any serious injury. If diagnosis of injury or illness cannot be treated due to financial reasons, the horse must be returned to DER immediately.

The horse must be trimmed or shod by a qualified farrier, going no longer than every 8 weeks. The feet are to be cleaned regularly.

Each horse must receive the required daily feed allowance plus plenty of good quality grass or hay.

Each horse must be offered no less than 15 gallons of fresh water each day, either in buckets or in a regularly cleaned out water trough (Must be heated in the winter). A stagnant pond or creek is not an acceptable primary source of water.

The adopter agrees not to work the horse beyond its physical limitations at any time or to put the horse in harms way at any time. Miniature Horses should not hold more than 50 pounds of body weight.

For two full size horses, we require that they have at least 1 acre of clear-cut pasture with some shade as daily turnout. For two miniature horses,

The horse must have access to at least a 3-sided shed in the paddock or field to block wind and bad weather. This shed must be an adequate size to house all of the horses turned out in their paddock/pasture.

Your pasture must have acceptable fencing. Barbed wire or a single wire electric fence is not acceptable. T-Posts must have plastic caps on the tops.

Variations in facility requirements depend on the horse, the region and the predominant weather.

Adopter agrees and understands that, under no circumstances, is an adopted horse(s) to be sold at a Livestock Auction or to Slaughter. **Any individual or organization in possession of the equine as of the date of this agreement and any time thereafter is bound to not sell the equine at auction for slaughter or allow the equine to be sold, transferred, released, or otherwise placed into possession of any person or organization that will cause or allow the equine to be sold at auction for slaughter.**

If the adopter can no longer care for or keep the adopted horse(s), DER must be notified immediately and given the option to take the horse back. Otherwise, we will work with the adopter to place the horse in an approved home.

The potential new adopter should read our adoption guidelines and fill out an adoption application, both found on our website. They will then go through the same approval process as any other adopter and DER will require a new contract with them.

The Adopter agrees to contact DER for the following reasons:

- If Adopter can no longer care for the horse.
- If the horse dies.
- If the horse becomes seriously injured or ill.

It is advised that the adopter pay for a pre purchase exam if you have any questions prior to the horse departing DER's facility. All costs upon departing and while away are to be paid by the Adopter, even the return transportation fee. DER is not responsible for any accidents or injuries either to the horse or adopter after leaving our facility.

The adopted horse can be returned to DER at any time, regardless of reason, if you can no longer provide a loving, forever home. The adoption fee will not be refunded.

* Adoption Fee: Concurrent with the Signature of this Agreement, Adopter is to pay a non-refundable adoption donation in the amount of \$_____ to The Dorset Equine Rescue, Inc. Payment in full of the adoption donation is required before removal of the adopted horse from DER's facility. This adoption donation may be tax deductible by the adopter, although DER makes no representation or warranty in that regard. Adopter should consult his/her independent tax advisor to determine deductibility.

* Prohibited Uses: ADOPTER AGREES THAT UNDER NO CIRCUMSTANCES SHALL THE ADOPTED HORSE BE USED FOR BREEDING PURPOSES.

G) Adopter releases, discharges, indemnifies and holds harmless The Dorset Equine Rescue from and against any and all claims, liens, damages, losses, and causes of action which may be asserted by Adopter and all third parties for injury or damage to all persons, property, or thing whatsoever caused directly or indirectly by the adopted horse
